

MMB-1 Top-load

MMB-1 Side-load

Filter frames for 4 x 4 and a 4 x 5.65 with closed corners.

Top and side flags for greater light control.

## Mini Matte Box MMB-1

The ARRI MMB-1 is designed for use with smaller HD camera bodies.

### Main Features

- Side-load version accommodates cameras with a top-mounted microphone
- Top-load version replaces one side loading filter frame with a top loading frame
- Rear stage fully rotatable
- Can be supported by 15 mm LWS rods or clamped directly onto the camera lens
- Suitable for lenses with a front diameter of up to 143 mm
- Top and side flag attachments
