

## MB 840 - Production MatteBox for Cine and TV, compact and versatile

**Tool-free exchange of Clamp Adapter (Ø 130 mm) and Swing-away Bracket**

**Locking of the 1st rotating plate and the entire filter-stage**

**Mount Arm 840-24R**  
for rod - Ø 19mm, included in version MB 840 RED.

### Production MatteBox with Swing-Away-Design, complete set with Double Filter Stage for 2 rotating filters

Swing-Away-Design for quick and easy lens change. The quick-lock device allows an easy change of the Double- against the Triple Filter Stage. The swing-away bracket fits on Light Weight Supports with 15 mm rod diameter. The connecting diameter is 142.5 mm. Light protection rings (and step down rings respectively) are available for all prime and zoom lenses of film and SD / HD TV-cameras.

The MatteBox comes with a large, foldable French Flag and 2 individually rotating filter-stages. The filter-holders are equipped with multi-format clamping. The first stage takes 4x5.65 vertical and 5.65x5.65 filter sizes, the second 4x5.65 vertical, horizontal and 5x5.

Further options for individual use: The Triple Filter Stage (slightly limiting the wide angle range to 5.2 mm), Side-Wings and bottom French Flag

#### Special Feature:

The Clamp Adapter (Ø 130 mm) replaces the Swing-Away Bracket and makes the MatteBox a SunShade, the SD 840.

**Special version for RED One** available: For **19mm support** system, double rotating stage with 2 identical multiformat filterholders for 4x5.65"/v/5x5". Usable max. wide angle is F=12mm. The Triple Stage is also an option.

#### Technical data:

Max. wide angle focus length F=mm	S16 6 / <b>S35 10</b> / still 16
	SD 3.9 / <b>HD 4.3</b>
Multi Format 4:3 and 16:9	S16, 35, SD, HD
Mattes 4:3 for F=mm	4.8/10/20/30/48
Mattes 16:9 for F=mm	4.8/10/20/30/48
Max. filter number / rotating / gear positioned	3 / 3 / -
Filter stage width (mm)	150
Filter size (inch)	4x5.65v/5x5 + 4x5.65vh/5.65x5.65
Connecting diameter (mm)	142,5
