Flathead 80 Select/DMX

What is a Flathead 80? Basically, the Flathead 80 is a hybrid Kino Flo. Its design adds flexibility and versatility of the popular 4Bank portable system to the oversized soft light quality you'd expect from a large fixture like the Image 87. It can be hand-held, mounted on a light stand or hoisted from rigging points to work as a cool, energy efficient coop light. Here are some standard features:

The 8-Lamp Fixture

- Aluminum alloy fixture housing
- Reflector, Gel Frame, Louver
- Twist-on locking Center Mount
- True Match® daylight, tungsten

The High Output Ballast (x2)

- Select and Select/DMX
- HO/Standard switching
- Flicker-free, remote operation
- Individual lamp control
