CRI 97

About BI-FLEX

The BI-FLEX is the first flexible BI Color LED panel for professional use in television, movie and photographic production with an outstanding light quality and a CRI and TLCI over 97.

The Flexlite is the cinematographer's choice for a small, lightweight and powerful lighting tool for many applications like: portable interview light or to hide in narrow spaces like elevators, cars or even inside objects for product photography.

The BI-FLEX runs from main power supply or battery.

The Flexlite comes with a dimmer and a mount for 16mm studs, to mount it onto your stands or clamps and it has on each corner a velcro enabling you to put it where ever you like, for instance to upgrade your old halogen softbox to LED.

The Flexlite is a flexible panel light 30x30cm and less than 5mm thick.

The light quality is outstanding with a CRI and TLCI of 97

In the box

1x Flexlite

1x Dimmer

1x Mount

1x Powersupply

1x Extension cable

1x Diffusor

Specifications
