## Ronford Baker Lightweight Precision Camera Slider

Introducing our new Lightweight portable slider.

The slider comes complete with removable and adjustable 'ARRI' standard rosette mounting legs, adjustable magnetic carriage stops and quick release carriage plate. Configurable without using any tools, you will be able to use either a 100mm or 150mm bowl mount options both on the top and underneath the slider. There is also a flat plate option for using attaching a quick release or dovetail plate.

The slider carriage runs on precision ground stainless steel rails to ensure a smooth and silent operation. 3/8" mounting points are available along the centre of the slider to help mount on a tripod using either a 100mm or 150mm levelling ball. The slider can also be mounted onto monopods or lighting stands.

Optional 32mm clamps on rosettes and tube kit is also available.

Protective impact & shock resistant wheeled case.

## Technical Specifications;

- Available in 2' and 3' Lengths
- Weight of 3' model is from 5.4kg, and 2' model is from 4.3kg
- Capable of supporting up to 25kg\*
